

Clearance Specials

Refurbished Demonstration and Applications Laboratory Instrumentation On Sale with **full warranty** until sold out - NZ Version

Take advantage of Shimadzu's **clearance special** with discounts as we upgrade to new models.
Please register your interest early as the number of instruments is strictly limited.

Used HPLC, UHPLC, LCMS and LCMSMS Systems

Prominence HPLC with UV
The industry performance standard Prominence modular system conveniently configured for the widest range of applications with UV detector.

\$33,000
Binary gradient system, non-cooled autosampler, oven, UV detector & software

Prominence HPLC with PDA
Prominence modular system conveniently configured for the widest range of applications with Photo Diode Array (PDA) detector.

\$38,500
Binary gradient system, cooled autosampler, oven, PDA detector & software

Nexera X2 UHPLC with PDA
World leading performance in all the key areas, pressure, flow rate, lowest carryover, ultrafast injections. Configured with Photo Diode Array (PDA) detector.

\$44,000
Binary gradient system, cooled autosampler, oven, PDA detector & software

Preparative HPLC with UV
Preparative HPLC modular system with binary 20mL/min pumps. Configured with UV detector with prep cell for efficient purification.

\$38,500
Binary gradient system, autosampler, UV detector & software.

LCMS-2020 with UHPLC
Ultra Fast Single Quadrupole Mass Spectrometer matched with Nexera UHPLC.

\$93,500
LCMS-2020 MS ESI, with Nexera Binary gradient system, cooled autosampler, oven & software

LCMS-8050 with UHPLC
Ultra Fast Triple Quadrupole Mass Spectrometer matched with Nexera UHPLC.

\$242,000
LCMS-8050 TQMS ESI DUIS, with Nexera Binary gradient system, cooled autosampler, oven & software

Add Additional Detector

Add ex-demo Fluorescence detector \$5,500
Add ex-demo Refractive Index detector \$4,400

Ex-demonstration Computer

Add ex-demo computer only \$550

Quote promo code **SPRING19**
Price in NZD excluding GST

Clearance Specials

Used GC, GCMS and GCMSMS Systems

GC-2030AF

Nexis GC-2030, Shimadzu's premier gas chromatograph, with new innovative features, exceptional performance and high throughput capability.

\$19,800

Includes autoinjector with 150 vial carousel & software
\$16,500 for the GC-2010AF version

GCMS-QP2020 EI

GCMS-QP2020 Single Quadrupole Mass Spectrometer.

\$49,500

Includes autoinjector with 150 vial carousel & software

GCMS-TQ8040 EI

GCMS-TQ8040 Triple Quadrupole Mass Spectrometer.

\$104,500

Includes autoinjector with 150 vial carousel, software & comprehensive consumables package

AOC-6000 Autosampler

Increase efficiency with robotics

\$27,500

PAL RSI 85 system with liquid and Head Space

\$38,500

PAL RTC 85 system with tool changer

\$44,000

PAL RTC 120 long rail system with tool changer

Used Biotage Products

Extrahera Sample Prep Automation

Automates sample processing with engineered precision for repeatable and solid results – every time.

\$93,500

TurboVap Solvent Evaporation

Second generation TurboVap incorporates many new features including the high efficient patented gas vortex shearing technology.

\$18,700

Inclusive of multi rack and tubes

SPE Dry Microplate Evaporation

Dual Sample Concentrators suitable for evaporation of microplate samples across a broad range of formats

\$16,500

XcelVap Evaporation/Concentration

Nitrogen blowdown evaporation system that provides automated evaporation and concentration of up to 54 samples.

\$16,500

Consumables

contact us for special pricing on LC, GC, SPE consumables

Ex-demonstration Computer

Add ex-demo computer only \$550

Clearance Specials

Used UV/Vis, FTIR, EDX and ICP

UV-1280

The UV-1280 with small footprint, pre-loaded software and USB data storage, ideal for routine DNA/protein, environmental, food quality and teaching laboratories.

\$3,500

Includes two matched quartz cuvettes

UV-1800

With 1nm resolution and small footprint, the UV-1800 double beam spectro has standalone or software control capability. Ease of use and data transfer to USB.

\$4,900

Includes software and two matched quartz cuvettes

UV-1900

A double beam spectrophotometer designed for speed and performance, with advanced regulatory compliance and ultra-fast scanning, the UV-1900 can operate standalone or with software control.

\$5,700

Includes software and two matched quartz cuvettes

UV-2600 & UV-2700

Taking Shimadzu's optical design to new levels with industry leading low stray light performance, designed for researchers. UV-2600 single monochromator
UV-2700 double monochromator

\$11,000 UV-2600

\$12,200 UV-2700

includes software and two matched quartz cuvettes

IRSpirit-T with ATR

The IRSpirit FTIR offers the highest s/n ratio in its class, compact in size with endless expandability with full size sample compartment.

\$19,200

IRAffinity-1 FTIR with ATR

Performance and specifications that will give you confidence in the quality of your data. The IRAffinity-1 offers an attractive price-to-performance ratio and high-sensitivity operation.

\$19,800

IRTracer-100 FTIR with NIR Kit

New levels of performance and quality with outstanding sensitivity, speed and resolution. This research grade FTIR has a signal to noise ratio of 60,000:1 resolution of 0.25cm⁻¹ and scan speed of 20Hz

\$19,800

EDX-7000

Energy Dispersive X-ray Fluorescence, measure elements without the need for sample preparation.

\$55,000

ICP-9820

Simultaneous ICP Atomic Emission Spectrometer, with superior accuracy and easy to use software, designed with you in mind.

\$55,000

UV-Vis Accessories

ASC-5 Autosampler \$3,800
160L Sipper Unit single pass \$1,100

FTIR Accessories

FlexIR NIR Probe \$11,000

Ex-demonstration Computer

Add ex-demo computer only \$550

Clearance Specials

Used Balances

AP Balance
Fastest response in its class with UniBloc AP Technology.

AP-224W 220g capacity 0.1mg display.

\$1,900

AUW Balance
UniBloc technology for fast response.

AUW-120D dual range
42g capacity 0.01mg display,
230g capacity 0.1mg display.

\$1,600

TX Balance
UniBloc technology.

TX2202L 2200g capacity 0.01g display
TX423L 420g capacity 0.001g display

\$490 each

TXB Balance
UniBloc technology.

TXB622L 620g capacity 0.01g display

\$270

UW Balance
UniBloc Technology.

UW420H 420g capacity 0.001g display

\$660

UX Balance
UniBloc technology.

UX6200H 6200g capacity 0.01g display

\$490

Used TOC

TOC-L & ASI-L
The TOC-L Total Organic Carbon analyser is Shimadzu's industry leading 5th generation TOC analyser. Suitable for everything from ultrapure to highly contaminated water.

\$44,000

TOC, with autosampler, software & Certified <10ppb C
TOC 40mL vials 216pk

Ex-demonstration Computer

Add ex-demo computer only \$550
